

Kyung Pyo (Paul) Kang

Seoul, Republic of Korea | kk69@iu.edu | +1-812-837-7305

RESEARCH INTERESTS

Research Area: Digital Platforms, IT Healthcare, E-commerce, Agentic AI
Methodologies: Econometrics, Machine Learning, Experiments

EDUCATION

Kelley School of Business, Indiana University Ph.D., Information Systems	Aug. 2025 – Current
Kyung Hee University, Seoul, Republic of Korea MS, Information Systems	Mar. 2022 – Aug. 2024
Kyung Hee University, Seoul, Republic of Korea BS, Business Administration	Mar. 2016 – Feb. 2022

HONORS AND AWARDS

Academic Excellence Scholarship Kyung Hee University	2020
Best Kauffman Student Paper Award International Conference on Information Systems (ICIS)	2021
Capstone Design Competition Best Award Kyung Hee University LINC+	2021
IAAI Deployed Application Award Innovative Application of Artificial Intelligence	2023

PUBLICATIONS

Kang, K., & Park, J. (2024). Dual verifications in mHealth apps: Supporting self-regulation or increasing friction?. *Electronic Markets*, 34(1), 36.

Kang, K. P., Jung, G. H., Eom, J. H., Kwon, S. B., & Park, J. H. (2023). Application of deep metric learning in the verification process of wheel design similarity: Hyundai motor company case. *AI Magazine*, 44(4), 406-417.

Cho, Y., Kang, K., & Kwon, O. (2021). Deep Learning-Based Box Office Prediction Using the Image Characteristics of Advertising Posters in Performing Arts. *Journal of Society for e-Business Studies*, 26(2).

PAPERS UNDER REVIEW

Jin, S. W., Kang, K. P., Kang, K. S., & Park, J. H. "Penalty Scarring: The Hidden Cost of Loss-Incorporating Incentive Designs on Digital Platforms." *Submitted to Management Science*.

WORKING PAPERS

Kang, K. P., Brendel, A. B., & Dennis, A. R. "Authenticity in the Age of AI: A Multidimensional Perspective on AI-Generated Products." *Target: MIS Quarterly*.

Kang, K. P., Tan, J., Santa, M., & Bala, H. "AI-Inferred Personalization in Digital Retail: How LLM-Generated Inference Shapes Consumer Trust, Privacy Concerns, and Purchase Behavior." *Target: Management Science*.

Wang, L., Kang, K. P., & Bala, H. "When Multi-Agent Interviews Help or Hurt: Design Principles for Agentic Interview Systems." *Target: Information Systems Research*.

Kang, K. P., Kan, R., & Yan, L. "How Social Media Shapes Personality Development in Young People with ADHD: Evidence from Reddit." *Target: Information Systems Research*.

CONFERENCE PRESENTATIONS

(HICSS 2025). Kang, K. P., Jin, S. W., Kang, K. S., & Park, J. H. "Performance after Rewards and Penalties: An Empirical Study of Gain-Loss Incentive Structure in an mHealth App". *Hawaii International Conference on System Sciences (HICSS)*, Big Island, Hawaii, January, 2025.

(INFORMS 2024). Kang, K. P., Jin, S. W., Kang, K. S., & Park, J. H. "Performance after Rewards and Penalties: An Empirical Study of Gain-Loss Incentive Structure in an mHealth App". *Inform's Annual Meeting*, Seattle, Washington, October, 2024.

(AAAI 2023). Kang, K. P., Jeong, G. H., Eom, J. H., Kwon, S. B., & Park, J. H. "Developing the wheel image similarity application with deep metric learning: hyundai motor company case". *AAAI Conference on Artificial Intelligence (AAAI)*, Washington D.C., February, 2023. (IAAI Deployed Application Award)

(WITS 2022). Kang, K. P., & Park, J. H. "Commitment Device or Friction?: An empirical study of individuals' goal achievements in the context of self-help mobile app". *Workshop on Information Technologies and Systems (WITS)*, Copenhagen, Denmark, December, 2022.

(INFORMS 2022). Kang, K. P., & Park, J. H. "Commitment Device or Friction?: An empirical study of individuals' goal achievements in the context of self-help mobile app". *Inform's Annual Meeting*, Indianapolis, Indiana, October, 2022.

(SCECR 2022). Kang, K. P., & Park, J. H. "Reaching Successful Self-Improvement Activities: An Empirical Study of Procrastination Patterns and Goal Type". *Statistical Challenges in Electronic Commerce Research (SCECR)*, Madrid, Spain, June, 2022 (Virtual Poster).

(ICIS 2021). Lee, S. J., Kang, K. P., Lee, J. H., Krishnan, V., & Park, J. H. "Making Charity Crowdfunding Work: An Empirical Study of Project Promotion for Improving Donor Contributions". *International Conference on Information Systems (ICIS)*, Austin, Texas, December, 2021. (Best Kauffman Student Paper Award).

RESEARCH EXPERIENCE

Kyung Hee University, Seoul, Republic of Korea

Research Assistant (Advisor: Prof. Jae Hong Park)

Dec. 2022 – Aug. 2024

Performance after Gain-Loss Incentive Results in mHealth Application

- Found the negative impact of penalties on users' performance in subsequent activities
- Found that users showed loss aversion not by increasing their performance, but by decreasing their deposit amount in the gain-loss incentive structure

Research Assistant (Advisor: Prof. Jae Hong Park)

Feb. 2022 – Aug. 2023

Low-Friction Strategies to Enhance Goal Achievement in mHealth Application

- Developed hypotheses through the theoretical lenses of self-regulation and friction theory
- Found the negative impact of dual verification methods on users' goal achievement

Research Assistant

Feb. 2022 – Feb. 2023

Development of an AI-Based Design Similarity Verification Tool, Hyundai Motor Company

- Discovered the empirical effectiveness of using cross-entropy loss in deep metric learning, achieving state-of-the-art results
- Deployed and developed an AI model at Hyundai Motor Company using a Django-based web framework

Research Intern (Advisor: Prof. Jae Hong Park)

Feb. 2021 – Feb. 2022

Improving Donor Contributions in Charity Crowdfunding

- Tested hypotheses by employing a difference-in-differences approach along with propensity score matching
- Discovered that promoting campaigns during the middle period with lower donor contributions significantly increased fundraising outcomes
- Presented at ICIS 2021 and won the Best Kauffman Student Paper Award

TEACHING EXPERIENCE

Kyung Hee University,

Teaching Assistant, Business Analytics

Sep. 2022 - Dec. 2022

Teaching Assistant, Capstone Design

Feb. 2022 - Jun. 2024

Elice Coding Platform, Seoul, Republic of Korea

Lecturer, HMM (Hyundai Merchant Marine Company)

May 2024

Lecturer, Samsung Electronics

Aug. 2023

Lecturer, Industry Professionals

Jul. 2023

Lecturer, Inha University

Jan. 2023

Lecturer, HL Company (Halla Holdings)

Oct. 2022

SKILLS

Programming Languages: Python (Advanced) û Java (Intermediate) û Java Script (Basic) û Oracle SQL (Basic)

Statistical Tools: STATA (Advanced) û R (Advanced)

Web Framework: Django (Intermediate)

Other Tools: AWS (Advanced) û LaTeX (Basic) û Tableau (Basic)
